

## Company Fact Sheet

Founded in 1986, Synaptics (NASDAQ: SYNA) is a leading developer of human interface solutions for the mobile computing, communications, and entertainment industries. The company creates interface solutions for a variety of devices including notebook PCs, PC peripherals, mobile phones, digital music players, and remote controls. The TouchPad™, Synaptics' flagship product, is integrated into the majority of today's notebook computers. Consumer electronics and computing manufacturers use Synaptics' solutions to enrich the interaction between humans and intelligent devices through improved usability, functionality, and industrial design.

### Locations

With world headquarters based in Santa Clara, California Synaptics has regional offices for sales, design support, and operations around the globe:

- Asia-Pacific Headquarters: Kowloon, Hong Kong
- Asia-Pacific Sales & Support: Taipei City, Taiwan
- EMEA Sales & Support: Morges, Switzerland
- Synaptics Japan: Tokyo, Japan
- Synaptics Korea: Seoul, Korea

FY Ending June 30, 2007  
Net Revenue: \$266.8 million  
Revenue per employee: \$936,095  
Net Income per Share – Diluted: \$0.94

### Partnerships

While Synaptics continues to expand its OEM base and the adoption of capacitive touch solutions with our ClearTouch and OneTouch product offerings, we have engaged in a parallel effort to integrate Synaptics best-in-class solutions within the platforms of key mobile industry leaders. These partnerships will help to standardize Synaptics technologies, making them an integral part of the device design and planning ecosystem.

Synaptics' partners include NVIDIA, Texas Instruments, Marvell, Movial, Google, TAT, Qualcomm, and Inventec.

### Products

Leveraging 15+ years of market experience, Synaptics provides two methods of engagement for delivering its capacitive sensing technology; (1) Custom touch modules, (2) Synaptics OneTouch™ customer design tools and chip sale. Custom offerings include:

- TouchPad™ for notebook PCs & peripherals
- TouchStyk™ for notebook PCs
- ClearTouch™ products portfolio composed of ClearPad™ and ClearArray™ for touchscreen or clear devices
- NavPoint™ mini touchpad for smaller devices and peripherals
- LightTouch™ capacitive buttons and scrolling for all electronic segments

### Market Firsts

Synaptics has established itself as a state-of-the-art technological pioneer with a record of industry firsts, including:

- Patented Pressure-Controlled EdgeMotion that allows the user to continue pointer or drag motions across the screen even when their finger has reached the end of the TouchPad.
- Trend-setting Virtual Scrollbars that allow the user to scroll directly on the TouchPad, independently of the cursor's position.
- Onyx Concept for ClearPad-enabled touchscreen technology.
- World's first clear capacitive touchscreen sensor, ClearPad™, for mobile devices.
- Revolutionary gesture recognition for PC TouchPads including ChiralMotion™ for scrolling, Pinch, and Momentum.
